San Francisco, CA

PROFESSIONAL SUMMARY

Senior Machine Learning Engineer with 6.5 years of experience researching, architecting, and deploying predictive ML and Deep Learning systems to cloud production. Expert in PyTorch, Scikit-Learn, MLOps, and Kubernetes

TECHNICAL SKILLS

- Programming: Python, SQL, C++, Bash/Shell
- ML & Deep Learning: Machine Learning, Deep Learning, PyTorch, TensorFlow, Scikit-Learn, XGBoost, Pandas, NumPy, SciPy
- MLOps & Cloud: MLOps, MLflow, Docker, Kubernetes, AWS (SageMaker, S3, EC2), CI/CD
- Architecture & Practices: System Design, Distributed Systems, Git / Version Control, Unit Testing, Agile / Scrum

- Bonus Skills: Transformers, Natural Language Processing, Vector Databases, Large Language Models

WORK EXPERIENCE

Staff Machine Learning Engineer | HyperScale AI (2021 - Present)
- Architected automated MLOps training and evaluation pipeline using MLflow, Docker, and Kubernetes on AWS, cutting model retraining turnaround by 65%.
- Developed real-time recommendation systems and gradient boosting models using Scikit-Learn and XGBoost handling 40M daily predictions.
- Led model governance, drift monitoring, and CI/CD deployment pipelines with zero downtime.

Machine Learning Engineer | Apex Analytics (2018 - 2021)
- Built deep learning NLP classification models in PyTorch and TensorFlow for multilingual text extraction.
- Engineered automated feature stores in SQL and Pandas, collaborating closely with data engineering.

EDUCATION

- Ph.D. in Computer Science (Machine Learning Focus), Stanford University (2018)
- B.S. in Computer Science, UC Berkeley (2014)
