Marcus Vance

Target: Senior Machine Learning Engineer | Exp: 5.0 Years | Degree: Master's Degree

---

Marcus Vance, M.S.
Email: marcus.vance@example.com | Phone: +1-555-014-9921
Seattle, WA

SUMMARY
Results-driven Machine Learning Engineer with 5 years of industry experience. Special
ized in productionizing supervised and unsupervised algorithms, building scalable RESTful APIs, and implementing robust MLOps practice

TECHNICAL SKILLS

- Core: Python, SQL, Scikit-Learn, PyTorch, TensorFlow, XGBoost, Pandas, NumPy
- Infrastructure: Docker, Kubernetes, AWS (SageMaker, EC2, S3), CI/CD, MLOps, Linux
- Software Engineering: Git / Version Control, Testing & QA, Pytest, System Design, R
ESTful APIs

PROFESSIONAL EXPERIENCE
Senior ML Engineer | CloudData Systems (2021 - Present)
- Trained and tuned XGBoost and PyTorch neural networks for enterprise fraud detectio
n with 94.2% precision.
- Built containerized model microservices using Docker and FastAPI deployed on AWS Sa
geMaker.
- Mentored junior engineers on Unit Testing, code quality, and MLOps monitoring.

ML Engineer | DataPulse Inc. (2019 - 2021)
- Implemented Scikit-Learn pipelines and feature engineering workflows for customer c
hurn modeling.
- Managed model deployments using Docker and GitHub Actions CI/CD.

EDUCATION

- Master's in Data Science, University of Washington (2019)
- B.S. in Statistics, Purdue University (2017)
